The reason I chose XM Radio is because they offer what my local radio stations don't. The traffic and weather channels are providing a service. I pay for my XM Radio service and I'm appalled that the FCC is bowing to pressure from lobbyists and big money. The name of the game in this country is free enterprise and if the broadcast channels are suffering, it's because they don't provide what we want. The government needs to tend to real issues and stop trying to interfere with free enterprise in the name of the almighty dollar and the #%@#*& lobbyists!! wake up, Washington, and listen, for a change, to the people you really work for!!!! Reject petition 04-160!
